Re: Class II permissive change authorization for RF exposure collocation evaluation

We Microchip Technology Inc. are authorizing Benjamin Sprachman of Powerhouse Dynamics, Inc. to apply for a Class II permissive change for our module with FCC ID: W7OZG2100-ZG2101. The purpose of this permissive change filing is to demonstrate compliance with the RF exposure limits when this module is collocated with a 2nd module with FCC ID: OA3MRF24J40MB in the end products of Powerhouse Dynamics, Inc.

Sincerely,

A handwritten signature in cursive script that reads 'Steve Caldwell'.

Steve Caldwell
Director, Wireless Products Division
