

March 31, 2011  
Regarding FCC ID: **W7Z-ZICM357P2**

To Whom It May Concern:

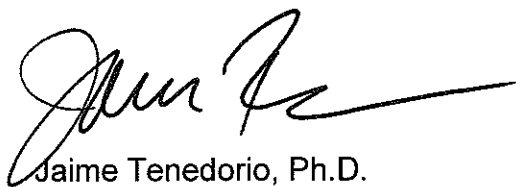

CEL is aware of the need for reduced transmit power on some channels for the ZICM357P2-1 module. The software that the module will be shipping with contains an algorithm to reduce the maximum power setting to:

Channels 1 - 23: Power setting 8  
Channel 24: Power setting -5  
Channel 25: Power setting -14  
Channel 26: Disabled

These limits have been tested and verified to be working as designed.

Thank you.
