

IPHONE 3G transmitter market shock!!

Model: YMS-F10A New, the new program, good sound quality, an exceptionally strong anti-interference!

1), to adapt the product: the United States, Britain, Europe, Japan, Russia, the sound quality is good, strong anti-jamming used all over the globe (Additional features can be customized according to customer requirements)

2), product packaging: blister packaging or color box packaging

3), the product is valid: permanent

4), the product:

① high-fidelity, stereo, using DIGITAL. PLL lock-in technology, clear sound quality, strong anti-jamming and support hands-free calls!

② with LCD display screen, a more intuitive frequency tuner

③ plane shot on the design of the central blue backlight

④ wide frequency points (88.1 ~ 107.9MHZ), a total of 199 frequencies

⑤ storage power has made at that time point RF functions can be kept for more than 10 years

⑥ cigarette lighter power supply, 360 ° rotation, convenient and practical!

⑦ apply to portable IPHONE, IPHONE 3G, CD, MD, MP3, MP4, PDA, PC, IPOD, DVD, mobile phones, and so any player

⑧ with IPOD and 3.5 audio plug

⑨ with a USB charge feature (directly to MP3, IPOD, IPHONE, mobile phones, such as player power or charge)

⑩ With remote control

Remote control function is infrared and FM Transmitter can be controlled to select channel or turning applicable volume.

5), the product features:

* The unique high-end designs

* DIGITAL. PLL lock-in technology, so that the launch of a more stable frequency point, and never drift

* Full-frequency design, can effectively avoid conflict with the radio interference and support for hands-free phone calls!

6), technical parameters:

* Frequency characteristics: 20Hz-20KHz

* Degree of separation: $\geq 60\text{dB}$

* Current: 38mA +10 mA

* Signal to noise ratio: $\geq 60\text{dB}$

* Audio distortion: <2% (mod = 75KHZ. F = 1KHZ)

* Harmonic and clutter: <-35db

* Operating voltage: 9 ~ 24V (cigarette lighter power supply)

FCC ID:W8D-F10B

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

changes or modifications not expressly approved by the party responsible for compliance

could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
