

Model: F6B

1), product adaptation: the United States, Britain, Europe, Japan, Russia, (which can be customized according to customer requirements)

2), product packaging: blister packaging or boxed

3), Life: permanent

4), Introduction:

① hi-fi stereo, using DIGITAL. PLL lock-in technology

② with LCD screen display. Tuning frequency more intuitive

③ the design of radio Chunlan backlight

④ full-point (87.5 ~ 108.0 MHZ)

⑤ a power storage points at the time of the radio functions, can be saved over 10 years

⑥ Cigarette Lighter power supply mode

⑦ apply to portable CD, MD, MP3, MP4, PDA, PC, IPOD, DVD players, such as any

⑧ with IPOD and 3.5 audio plug

⑨ with a USB charging functions (directly to MP3, IPOD players such as electricity or rechargeable)

⑩ with a card-type remote control (available from the control of the FM transmitter)

5), product features:

* Unique high-end designs

* Choi DIGITAL. PLL lock-in technology, so that the frequency point fired more stable, never drift

* Full-frequency design, can effectively avoid conflict with the radio interference

6), technical parameters:

* Frequency characteristics: 20 Hz-20KHz

* Degree of separation: ≥ 60 dB

* Current: 38 mA +10 mA

* SNR: ≥ 60 dB

* Audio distortion: $<2\%$ (mod = 75KHZ. F = 1KHZ)

* Clutter and harmonic: <-35 db

* Voltage: 9 ~ 12 V (Cigarette Lighter power mode)

FCC ID:W8D-F6B

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
