RE: LONG TERM CONFIDENTIALITY REQUEST FOR POWERED BEACON
MODULE HR-BAH-PBM000, FCC ID: W9809001

To Whom It May Concern:

This letter serves as an official request for confidentiality under sections 0.457 and 0.459 of CFR 47. We have requested that the following items required to be submitted with this application be permanently withheld from public review.

Bill of materials
Block diagram
Operation description
Schematic diagram

The above documents contain detailed system and equipment descriptions and related information about the product, which Tridium considers to be proprietary, confidential, and a custom design and otherwise, would not release to the general public. Since this design is a basis from which future technological products will evolve, Tridium feels that this information would be of benefit to its competitors, and that the disclosure of the information in these documents would give our competitors an unfair advantage in the market.

Please contact me if there is any information you may need.

Sincerely,

A handwritten signature in dark ink, appearing to read "Linwood Morton", with a stylized flourish at the end.

Linwood Morton
