Confirm that that the results from conducted tests applied to the radio module Cinterion EHS5-US, FCC ID QIPEHS5-US, which is incorporated in our host equipment Remote Access Device 3G, FCC ID W9T-P10305, and as reported in module test reports 6-0147-12-9-3a issued on 10-26-2012 and 6-0147-12-9-3b issued on 10-29-2012 accurately represent the test results under the new conditions when the identified radio module is integrated in the identified host equipment. By integration of the said radio module into the identified host equipment no changes were made to it or by external adaptation circuitry that impacts the validity of the results of the original module's test reports.
