

Quick User Guide

DV-725

*The figures provided in this document are just for reference only. Please prevail in kind.

Device Package

Device x 1 AC/DC Adapter x 1 User Guide x 1 Ethernet Cable x 1

Device External Interface

Environmental Specification

Feature	Specs.	Feature	Specs.
Operating temperature	0 ~ 40°C	Operating humidity	0 ~ 95%
Storage temperature	-20 ~ 60°C	Storage humidity	0 ~ 95%

LED Indication

LED Indicators	Color	Status	Description
Phone	Green	Steady on	Registered
		Blinking (500ms interval)	Connection has been established and is in a state with hook or ringing
		Off	Unregistered
WiFi	Green	Steady on	2.4G/5G WiFi available
		Blinking (500ms interval)	Data transmission
		Blinking (1sec interval)	Setting up WPS connection
		Off	2.4G/5G WiFi unavailable
Internet	Green	Steady on	Internet available
		Off	Internet unavailable
		Blinking (500ms interval)	Data transmission
Power	Green	Steady on	Power on
		Off	No power supply
LTE Signal	Green	Steady on	Display the current LTE network signal, the stronger signal the more bars on
		Off	No signal
		Blinking (1sec interval)	Searching network of LTE
		Blinking one by one	Firmware upgrade

Getting your Device Ready for Connection

Step 1

Insert SIM Card

Before powering on the CPE, please make sure to insert the LTE SIM card provided by your service provider.

Note:
The metal part of the SIM card is facing back.

Step 2

Power On

Connect your CPE to power with the power cord and plug. Then, the LEDs will blink for a few seconds and go off.

Power Connector

Power adapter

Wall socket

Step 3

Establish LTE Connection

Once power on, the CPE will automatically connect to your subscribed LTE services. The operation to set up connections will take place afterwards.

Note: Adjust the location of the LTE CPE for optimized signal reception. Usually, it is recommended to place the indoor modem near the window, facing toward the base station.

Using Web User Interface to Access Device

Step 1

Connect to the device via the LAN cable or WLAN.
To connect WLAN, please refer to the SSID and WIFI key on the device label located on the back of the device.

Note:
RJ-11 cable is not included in DV series

Step 2

Open the browser, enter **http://192.168.1.1** in the address box, and login Username and Password.

Default IP address: **192.168.1.1**

Username: **admin**
Password: **admin**

Note:

1. If the device operates in routing mode, it is recommended you automatically obtain the IP address and DNS server address.
2. The Username and Password to the device may vary depending on your LTE service providers.

Step 4

Once login, the overview page will be displayed, and you can have a status overview on device activity.

Step 5

On the overview page, you can click on each sections to see the information or detailed configurations. Below is an example of **Device Information**.

Set up Wi-Fi Connection

If you have Wi-Fi devices in your home, you can connect them to the Internet with your CPE. When the Wi-Fi LED lights up, it indicates that Wi-Fi is enabled. When the Wi-Fi LTE starts blinking, it indicates that data is being transmitted.

Step 1

Switch on Wi-Fi on Your Laptop

Step 2

Find the Wireless Network

Right-Click on the Wireless Network Connection icon at the bottom right of the screen and select "View Available Wireless Networks."

Step 3

Enter Security Password

In the list of available networks, choose the one that matches the SSID Key. Click "Connect", you will be prompted to key in the WIFI Key (See label content on Page 4).

Step 4

Click on Your Internet Browser

Now you will be able to connect to the Internet.

Declaration of Conformity with Regard to the R&TTE Directive 1999/5/EC

cs	Česky [Czech]	Greenpacket tímto prohlašuje, že tento DV-725 je ve shodě se základními požadavky a dalšími příslušnými ustanoveními směrnice 1999/5/ES.
da	Dansk [Danish]	Undertegnede Greenpacket erklærer herved, at følgende udstyr DV-725 overholder de væsentlige krav og øvrige relevante krav i direktiv 1999/5/EF.
de	Deutsch [German]	Hiermit erkläre Greenpacket, dass sich das Gerät DV-725 in Übereinstimmung mit den grundlegenden Anforderungen und den übrigen einschlägigen Bestimmungen der Richtlinie 1999/5/EG befindet.

sv	Svenska [Swedish]	Härmed intygar Greenpacket att denna DV-725 står i överensstämmelse med de väsentliga egenskapskrav och övriga relevanta bestämmelser som framgår av direktiv 1999/5/EG.
	Íslenska [Icelandic]	Hér með lýsir Greenpacket yfir því að DV-725 er í samræmi við grunnkröfur og aðrar kröfur, sem gerðar eru í tilskipun 1999/5/EC.
no	Norsk [Norwegian]	Greenpacket erklærer herved at utstyret DV-725 er i samsvar med de grunnleggende krav og øvrige relevante krav i direktiv 1999/5/EF.

FCC Warning

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
