Rīga, Latvia, LV-1005

Equipment: Aranet4 PRO  
FCC ID: W9Z-A4MK3PRO  
IC: 8855A-A4MK3PRO

Label location justification Letter

To whom it may concern

Regarding identification label placement for this application, SAF Tehnika AS wishes to place the label on the printed circuit board in a way that it can be seen from the battery compartment due to size, aesthetics, and durability. This device is small and is exposed to the elements, which could degrade labeling over time. The equipment is sold without the batteries installed providing the end user exposure to the label before operation. This location will offer and ensure the end user opportunity to view the label before operation. The identifier label will be readily viewable each time the battery is removed or replaced. This location will help ensure the longevity of the label as this equipment may be in service in harsh environments.

Sincerely

Aivis Danovskis  
Product Manager
