Family Approval Cover Letter

To whom it may concern

SAF Tehnika AS does hereby state the equipment D06GSR18L, D06GSR18H are electrically identical, are produced using the same Printed Circuit Boards, Transmit and Receive modules and Diplexer, as well as they use the same firmware.

D06GSR18L, D06GSR18H are in fact the Low and High Side Radios of Integra-5G8 product, and the only difference between them are different transmit (Tx) and receive (Rx) ranges, which are set during the manufacturing process and cannot be modified by user.

Sincerely

Aivis Danovskis  
Product Manager
