**Overall Assessment Letter for verykool USA Inc. i280
FCC id: WA61280**

I have reviewed this application and find it compliant. This is an application for a mobile phone supporting GSM/GPRS/EGPRS 850/1900 and Bluetooth.

As a result of the assessment review the label was updated, a Bluetooth and USB block diagram was provided and conducted emissions test-set-up photos were received. Additionally the SAR report was updated to include the appropriate rule references and corrected SAR levels.

The product supports simultaneous transmission. The test report was reviewed in accordance with KDB 648474 D01 SAR Handsets Multi Xmitter and Ant, v01r05. Simultaneous transmission SAR was not required to be tested and approved.

I underwent the FCC RF exposure training with the FCC in October 2008.

Yours sincerely
