Security and performance

- ◆ Do not touch the screen of the mobile phone with sharp objects. Dust particles and nails may scratch the screen. Please maintain the screen clean. Please gently remove the dust on the screen with soft cloth to avoid any damages to the screen.
- ◆ In thunder raining days, please do not use the mobile phone when charging it or outdoor, so as to avoid being struck by thunder or other injuries.
- ◆ Please do not put the battery in high-temperature environment (high temperature will lead to heat of the battery upgrading), or else it may result in fire or explosion.
- ◆ Please keep the mobile phone charged and keep charger away from people or other flammable and explosive articles in order to avoid fire, explosion or other dangers!
- ◆ Please follow the rules strictly and shut down the mobile phone on occasions when use of mobile phone is prohibited!
- ◆ Please do not put the mobile phone, battery and charger in the equipment with strong electromagnetic field, such as induction cooker and microwave oven; otherwise it will lead to circuit failure, fire or explosion.
- ◆ Please do not arbitrarily refit the mobile phone, or teardown the mobile phone and accessories without authorization. Improper refitting or teardown may trigger fire and explosion of the mobile phone. Only the authorized service centers can repair the mobile phone.
- ◆ Please do not use battery, charger or accessories of non-standard original models.
- ◆ Please do not join the two poles of the battery, so as not to result in battery short-circuit.
- ◆ Please do not use the mobile phone if the power wire has been damaged (such as the exposed and fractured), or the connector has been loosened, so as to avoid electric shock, short circuit of the charger or fire.
- ◆ The mobile phone should be powered off in the hospital or other places where use of mobile phone is prohibited.

Mobile phone will affect proper functionality of electronic equipment and medical devices, such as pacemakers, hearing aids and other medical electronic equipment. Pacemaker manufacturer proposes to keep the distance between the mobile phone and the pacemaker at least 15 cm (no comma) in order to avoid potential interference by the mobile phone.

◆Please do not use the mobile phone when driving a car. In case of emergency, please use hand-free devices (which may be bought separately); otherwise, please park your car on the road side before making a call.

◆Please do not put the mobile phone on car insurance airbag or region reachable by the airbag after spreading. Otherwise when the airbag expands or ruptures, the mobile phone is likely to cause serious damage to the people in the car due to strong external force.

◆Please keep the mobile phone, battery and charger at place out of the reach of children. Please do not let children use the mobile phone, battery and charger in the absence of adults' supervision.

◆In order to comply with provisions of RF leakage, when you wear a mobile phone or use the data functions of the mobile phone, please maintain the distance between the antenna and the body at least 1 inch (2.5 centimeters).

◆Please power off the mobile phone before cleaning and maintenance. If the mobile phone is connected to the charger, you need to unplug the charger from the power outlet, and disconnect the connection between the charger and the mobile phone in order to avoid electric shock, short circuit of battery or charger.

◆Do not use chemical lotion, scrubbing cleanser to wipe the mobile phone or the charger, otherwise it may damage the components or cause fire. Slightly wet and anti-static soft clean cloth can be used.

◆Please do not throw used lithium batteries into trash can, send them to the designated recycling center or return them to our company.

◆Please do not charge the mobile phone in dusty or humid environment or extreme temperature (the permitted charging temperature range is 0℃~ 40℃), and the power wire cannot be nearby the heating containers.

◆In the use of network function, if the users download a file with virus, which make the mobile phone cannot be used normally; the company does not undertake any responsibility arising therefore.

Warning: The original manufacturer will not take on any responsibility for the users who are not in compliance with the above advices or improperly use the mobile phone.

Note: The application of value-added services of the mobile phone is provided by relevant service providers. Please refer to the relevant help or providers' notes for detailed information.

Statement: The Company reserves the right to improve the product without making any advance notice, and keeps final interpreting rights on the product performance. The company commits to improve the product quality and gradually launches new versions of products. So if the contents stated in the manual are slightly different from the function, specification or design, please refer to the mobile phone. Such changes are not notified additionally, your understanding is appreciated.

A USB cable with shielded.

A earphone

A power adaptor

FCC RF Exposure Information and Statement

The SAR limit of USA (FCC) is 1.6 W/kg averaged over one gram of tissue. Device types I601 (FCC ID: WA6I601) has also been tested against this SAR limit. The highest SAR value reported under this standard during product certification for use at the ear is 0.572W/kg and when properly worn on the body is 0.734W/kg. This device was tested for typical body-worn operations with the back of the handset kept 1.5cm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain a 1.5cm separation distance between the user's body and the back of the handset. The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided.

FCC WARNING

This device complies with Part 15 of the FCC Rules.

Operation is

subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a

particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
