2	Micro USB charging jack	7	Microphone
3	▲ :volume up/previous song	8	Big/middle/small eartips
4	⏻ : Multi-functions button	9	Stabilizer
5	▼ : volume down/next song		

2. Charging for headset

The headset comes with a built-in rechargeable battery, prior to using it, it is recommended to charge the battery fully for the first time.

When the headset is low power, the headset emits “Battery Low” every 1 minutes and LED flashes like “red LED-blue LED”. Please recharge the battery of the headset.

The way of charging as following:

Using USB cable

1. Turn on the cover of charging jack, and plug the USB charging cable
2. Plug another side of cable to the USB port of PC
Red light on: Charging
Red light off: Finish charging
3. It will takes about 2 hours to finish charging

Remarks:

- 1) The battery is recyclable.
- 2) Batteries (battery pack or batteries installed) shall not be exposed to excessive heat place, such as sunshine, fire or the like.

■ Getting started

1. Turning on/off the headset

Functions	Operation	Prompt tone
Turning on	Press and hold  about 3 seconds until blue LED flashes	Power on
Turning off	Press and hold  about 3 seconds until red LED flashes	Power off

Remark: In order to save power, the headset will turn off automatically if no devices can be connected after 5 minutes.

2. Wearing the headset

a. Put the stabilizer into the headset and rotate to the suitable position as following shown:

- b. Choose the suitable size eartips according to your ear and wear to the headset.
c. Wear the headset to your ear in L/R direction, and rotate the headset to get best comfortable feeling.

- c. Set up the cord management clips to get better wearing as following shown:

3. Pairing/connecting

1) Pairing headset with Bluetooth cell phone via Bluetooth

Prior to using the headset for the first time, you have to pair it with a Bluetooth-enabled cell phone. The pairing procedures are subject to different models of cell phones. Please refer to your cell phone user's manual for further information.

The general pairing procedures are as follows:

- 1) Keep your headset turned off and within 1 meter of phone ;
- 2) Press and hold  about 6 seconds until the red and blue LED flash alternately, the headset enter into pairing mode and emits “Pairing”;
- 3) Activate your cell phone’s Bluetooth function and search for Bluetooth devices within range, select “BTH026A” from the list of devices shown (enter password “0000 ” if the headset prompt);
- 4) After successful connecting, blue LED of headset flashes twice every 4 seconds and emits “Connected”.

Remarks:

- ◆ Pairing mode will last 2 minutes, the headset will back to standby mode if the pairing failure.
- ◆ Every time the headset is turned on, it will connect to last connected device automatically.
- ◆ When the headset is on without connecting any other devices,short press  it will connect to the last pairing devices.
- ◆ When the headset and devices are out of range it will disconnected,and reconnecting automatically if return back effective range within 5 minutes.To save power the headset will turn off automatically after 5 minutes.

2)Pairing headset with Bluetooth transmitter via Bluetooth.

You can connect the headset to a Bluetooth transmitter to enjoy music wireless. Hereby take BTT005 (Bluetooth transmitter, not included in accessories) for example. The pairing steps are as follows:

- 1) Keep your headset and transmitter within 1 meter when pairing;
- 2) Make the headset enter pairing mode (Please refer to “How to enter pairing mode);
- 3) Turn on the Bluetooth transmitter and make it enter pairing mode. It will search for Bluetooth devices automatically and send a pairing request;
- 4) After successful pairing and connecting, blue LED of the headset flashes twice every 4 seconds .

Remarks:

- a) The pairing password of BTH026A is “0000”. So, the headset can only pair with a Bluetooth transmitter whose pairing password is “0000”.
- b) If pairing still fails after several tries, please refer to the Bluetooth transmitter’s user’s manual for further information.

3) Pairing headset with multi devices via Bluetooth

The headset can connect with two Bluetooth cell phones at the same time.

The general pairing procedures are as follows:

- 5) Pairing the headset with device one
- 6) Turn on the headset and make it enter pairing mode again, and pairing it with device two
- 7) Operate device one to connect with headset. The headset has already connected with two devices in this moment. Or restart BTH026A it will connecting two devices automatically .

4. Battery display

When the headset connected with IOS device, it will display the battery of the headset on the device. When the headset is in low battery, power symbol show red, it emits you to charge for your headset.

Full charge

Battery Low

3. Why can't I hear the sound on the headset?

- c) Make sure the headset has been switched on;
- d) Make sure the volume is not too low or muted;
- e) Make sure the headset connects with the mobile phone correctly;
- f) Make sure the distance between the headset and the cell phone is in the available Bluetooth range.

4. Why can't I hear the sound clearly on the headset?

- a) Make sure the mobile phone is in the strong signal area;
- b) Make sure the headset is in the available range of this product.

5. Why the pause/play, last/next song not function when playing music?

Make sure your Bluetooth device supports AVRCP (Audio/Video Remote Control profile)

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.
