■ Before using

1. About BTT010

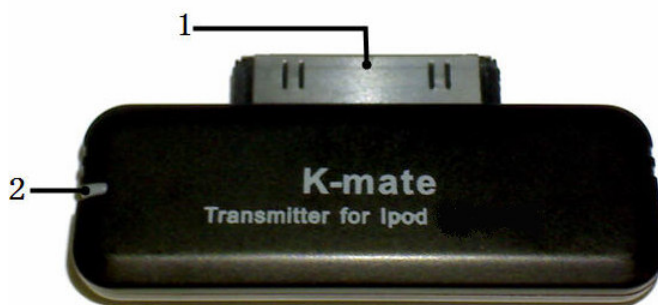

BTT010 is a Bluetooth transmitter. for iPod. It supports the following Bluetooth profiles.

Profiles	Description
A2DP (Advanced audio distribution)	Stereo music play
AVRCP(Audio/video remote control)	Music remote control(control the function of pause、 play、 last song and next song)

As long as you plug the transmitter into the iPod, and pair with your stereo Bluetooth receiver(such as stereo Bluetooth headsets or Bluetooth speakers),you can enjoy music wirelessly. Additionally , you can remote control your iPod through operating the receiver if your Bluetooth receiver also supports AVRCP ,.

Using it as soon as you plug it in, no need to charge. It is very convenient.

2. Overview

- 1 iPod dock connector——using it to connect with iPod
- 2 Indicator LED——status indication

■ Start to use

1、 Switching on/off the transmitter

Function	Operation	indicator light
Turn on	Connect the transmitter with iPod	Indicator flashes quickly
Turn off	Take out the transmitter from iPod	Indicator light is off

Note : please operate your iPod if the transmitter dose not work.

2、 Pairing with Bluetooth devices

You can enjoy music wirelessly after pairing and connecting the transmitter with Bluetooth receiver,. Before pairing, please make sure your Bluetooth receiver supports A2DP profile. The steps are as follows:

- 1)、 Keep the transmitter and your stereo Bluetooth receiver within 5 meters
- 2)、 Turn on your Bluetooth receiver, and turn it to pairing mode.
- 3)、 Connect the transmitter with iPod, make sure your iPod is on, the indicator light will flash quickly..
- 4)、 The transmitter will search and pair with the Bluetooth receiver automatically..
- 5)、 After successful connecting the transmitter indicator LED will flash slower than before. At this time, play music in the iPod .

Note :

- The transmitter can pair with stereo Bluetooth receivers which PIN Nos. are "0000"、 "1234"、 "7777" or "8888".
- Connecting with the last paired device automatically when turn on the transmitter. So,. If you want to pair with other devices, please turn off the current receiver, and then start to pair with new device.

3、 Music remote control

You can remote control last song、 next song、 pause、 revert to play through operating the Bluetooth receiver. This function needs your Bluetooth receiver to support AVRCP(audio/video remote control) profile. Please refer to your user manual of Bluetooth receiver for further information.

4、 Indicator LED

Indicator LED	Status of transmitter
Blue LED flashes quickly	Pairing mode or disconnect with Bluetooth device
Blue LED flashes every 2 second	connected with Bluetooth device
