Subject : Request for Class II Permissive Change
FCC ID : WAZSKE13401
Original grant date : 04/01/2011
Applicant : Mitsubishi Electric Corporation Himeji works

To Whom It May Concern:

This is to request a Class II permissive change for FCC ID: WAZSKE13401, originally granted on 04/01/2011.

We changed the following points from the original model.

- Connector is change from 28 terminals to 24 terminals.
- The Print Circuit Board(PCB) is shrinks.

Therefore, as for the PCB, a little pattern change and some parts are deleted. There is not the change of the LF circuit.

Please refer to attached "Theory of operation" for details of these modifications.

This time, we performed the testing and confirmed that this product still meets the minimum requirements of the applicable rules of FCC. Please refer to the test report submitted with this application.

Thank you for your attention to this matter.

Sincerely yours,

Tomoko Masuda
