IV. Preparation

- Use the supplied USB cable to charge your portable speaker directly from your computer or device with a micro USB port. Make sure that the speaker is fully charged before using it for the first time.
- The portable speaker battery has to be initially charged for at least 12 hours. Thereafter, the battery will take from 2 to 3 hours to recharge.
- While charging, the LED glows red. When the battery has reached full capacity, the LED will change to green.
- To turn on the speaker, press and hold the power button for several seconds. Press and hold the power button once more to turn off the device.

Note: The speaker will automatically shut down without any audio input in 15 minutes.

V. Pairing the wireless speaker with your smart device

1. Place your smart device and wireless speaker no more than one meter away from each other.
2. Press the power button located on the back of the speaker for several seconds to turn it on.
3. Set your smart device to “discover” the wireless speaker.Upon powering on, a tone will be heard, the blue LED will start flashing, accompanied by a prompt notifying that the speaker has entered into the pairing mode.
4. Enabled Bluetooth on your device and choose **Cloud Fox BS7** from the list.
5. If pairing is successful, the LED will change to steady blue and your phone will confirm that the connection has been established. If the pairing process fails after 60 seconds, please repeat steps 1 through 5 described above.

VI. Answering and ending a call using your speaker or mobile phone

1. When there is an incoming call, the speaker will generate a tone and a verbal notification to alert you of this event.
2. Briefly press the Handset button to pick up, long press to reject. You may also press the answer button on your smart phone to take the call using the speaker.

FCC Statement:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
