Attn: Director of Certification

FCC ID: WEF-WDC

**Class II Permissive Change Request**

Stanley Security Solutions, Inc. requests a Class II Permissive Change for the product listed with the FCC ID number above due to shielding modifications. We wish to remove the additional shielding "fence" and "cap" from the board, while leaving the PCB the same. We feel the PCB has adequate shielding designed into the layout and does not require the additional shielding mechanics currently in place. The radio frequency will not change from the previously certified device. The maximum output power will not change from the previously certified device. The radio frequency circuitry will not change from the previously certified device. Functional capabilities of the device will not change.

Sincerely,

A handwritten signature in black ink, appearing to be the initials "TB" with a stylized flourish.
