List View

This is the function to display the ContactPool contacts in different format. They are “List view”, “Detail view” and “Business Card” view for selection.

The image displays three different views of the ContactPool application:

- List View:** A table showing a list of contacts with columns for Name, Company, Mobile, Work Phone, Home Email, City, and Join Date.
- Detail View:** A form showing detailed information for a selected contact, including Name, Email, Mobile, Work Phone, Home Email, City, and Join Date.
- Business Card View:** A grid of business cards for selected contacts, each displaying a photo, name, and contact information.

Recycle Bin

To avoid delete wrong contacts from list, the selected delete items will be move to “Recycle Bin”.

	Name	Company	Mobile	Work Phone	Home Email	City	Join Date

Advanced Search

The feature provides quick search for a contact in ContactPool list by specific key words.

The screenshot shows the 'Advanced Search' page of the ContactPool application. The top navigation bar includes 'Home', 'Contacts', 'Services', 'Synchronize Contacts', and 'Settings'. Below this, a sub-navigation bar lists 'All Contacts', 'Favorite', 'Recent', 'List View', 'Privacy Bot', and 'Advanced Search'. The main search area has a 'Keyword' input field, a 'Search' button, and an 'Advanced' link. There are three sections for filtering: 'Basic Info' with fields for First Name, Last Name, Job Title, and Company; 'Telephone & Email' with fields for Email and Phone; and 'Events' with fields for Event Topic, Communicate Way, and Date. A 'Search' button is located below these sections. The 'Search Result' section displays a table with columns: Name, Company, Email, Work Phone, Home Email, and Steps. One result is shown for 'Sophia Yeh' with company 'computing without boundaries', email 's.yeh@seawall.com', and work phone 'Phone2011-05-18/1'.

Name	Company	Email	Work Phone	Home Email	Steps
Sophia Yeh	computing without boundaries	s.yeh@seawall.com	Phone2011-05-18/1		

3.Service

Capture the cards on hand through SmartDevice and press "Upload" to save the cards images into ContactPool.

The screenshot shows the 'Services' page of the ContactPool application. The top navigation bar includes 'Home', 'Contacts', 'Services', 'Sync', and 'Settings'. Below this, a sub-navigation bar lists 'Upload Business Card', 'PhotoBot', 'Business Record', 'Business Card', 'Completed', and 'Business'. The main content area displays two scanned business cards. The first card is for 'Vera Klein' from 'EUC University Limited'. The second card is for 'EUC University Limited' with contact information. To the right of the cards is a 'Photo' section with a small image of a person. At the bottom, there are 'Upload' and 'Sync' buttons.

ContactPool also provides cards transcribe service. You can pick up a prefer package from the option below.

Once confirm the selection, the service record will show up in "My Account".

You can see the cards image transcribe status at "In Process" page.

The cards which completed transcription will be moved to “Completed” page. If there’s any card image cannot be recognized by service team, they will be listed at “Rejected” page instead. These images are required to be resend at better resolution.

4. Synchronize Contacts

The synchronize page can setup different synchronize points in ContactPool, such as Gmail, MSN, Outlook or your own laptop. Follow the instruction below to create new synchronize item, then, you can keep the completed contacts in one web location.

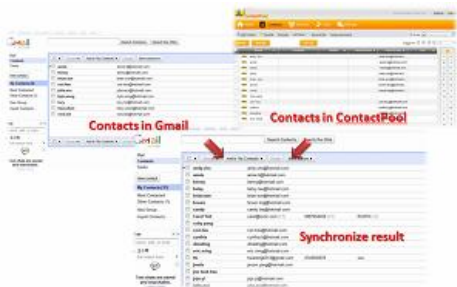

Synchronize point setting for Gmail and MSN:

1. Naming new synchronize point.
2. Enter email account and password.
(MSN synchronize will be continued once sign in MSN)
3. Synchronize preference settings.
4. Set conflict resolution.

Synchronize point setting for Laptop and Outlook:

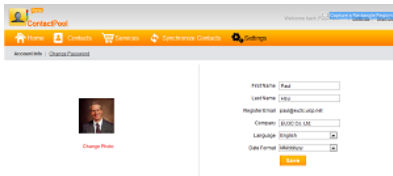

1. Double click ContactPool Application download in laptop.
2. Add synchronize point name when a pop out window appears.
3. Go settings in ContactPool Application in laptop to enter user name and password for access ContactPool Online contacts management system.
4. Preset the synchronize preference and conflict resolution.
5. Press "Synchronize Server" to synchronize the contacts.

Ex. Synchronize ContactPool with Gmail

5.Settings

This page allows you to change the account information after sign in.

The screenshot shows the 'Settings' page of the ContactPool web application. At the top, there is a navigation bar with links for Home, Contacts, Devices, Synchronize Contacts, and Settings. Below the navigation bar, there is a user profile section on the left with a placeholder for a profile picture and a 'Change Photo' link. On the right, there is a form to update user information. The form includes fields for First Name (Paul), Last Name (Liu), Register Email (paul@cs.cup.edu.cn), Company (BUCCO, INC), Language (English), and Date Format (MM/DD/YYYY). A 'Save' button is located at the bottom right of the form.

First Name: Paul
Last Name: Liu
Register Email: paul@cs.cup.edu.cn
Company: BUCCO, INC
Language: English
Date Format: MM/DD/YYYY
Save

Federal Communication Commission Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
