Subject: BT not in RF exposure analysis

FCC ID: WJ9-ARU3560

IC: 5530C-ARU3560

To whom it may concern

The RF Exposure, MPE calculation for the FCC ID: WJ9-ARU3560 / IC: 5530C-ARU3560 that contains the WLAN / BT Module (FCC ID: WJ9-WL1837MOD / IC: 5530C-WL1837MOD) does not contain any analysis for the Bluetooth Classic or Low Energy part of the module.

This is because the BT has a much lower output power than the WLAN that operates in the same frequency band and, hence, does not impact the RF exposure analysis.

Yours faithfully,

The Certification Team, UL VS Ltd
