#### Alertme Button RF Exposure Calculations

The test report for the Button shows a maximum output power of 0.88 dBm (on Zigbee channel 25).

The Antenna gain is specified as 0dBi , so the total radiated output power is 0.88 dBm (or 1.22mW).

This is significantly below the 60/F limit at 2475Mhz which is 24.24mW.

Sincerely,

Bruce Benson
