RE: FCC Certification
FCC ID: WJHHUB450

To Whom It May Concern:

The module tested and certified under FCC ID Z64-WL18SBMOD is incorporated in the Product name here (FCC ID WJHHUB450) and is not modified in any way. The only reason for the re-certification is due to the module being used with a different antenna to those used by the manufacturer during their certification.

On this submission we are filling original module test reports that still accurately represent conducted test results under the new conditions described above. The original test reports are identified as: FRN3N27552-01B, FRN3N2752-01C and are only used and valid for conducted test results

On this submission we are also filling additional new test evidence for radiated results and RF exposure to demonstrate full compliance of both module integrated into the host and the host itself.

Thank you for your attention to this matter.

Yours faithfully

Centrica Connected Home Ltd
