

Matias One Keyboard for iPhone & Mac

Setup Instructions

System Requirements

- Mac with available USB port
- iPhone 3GS or newer, iPod touch 3rd generation (2009) or newer

Plug the **One Keyboard**
into your **Mac**

Press the
iPhone button

It should start **flashing blue**

If it's not flashing, then
hold it down for a few
seconds until it starts
flashing

Open the **Settings** app on
your **iPhone** or
iPod touch

Tap on **General**

Tap on **Bluetooth**

When the keyboard appears, tap on **Not Paired**

If Bluetooth is off, tap the OFF button to turn it **ON**

Bluetooth will begin searching for devices

A message telling you the **passkey** will appear

Type the **passkey** on the numberpad

Then press the **Enter key**

The keyboard is now **connected** and ready to be used

To **switch** between
iPhone & Mac,
press the
iPhone button
on the keyboard

The button **glows blue**
when connected to
your **iPhone**

The button is **white** when
connected to your **Mac**

REMEMBER...

Bluetooth keyboards
prevent the onscreen
keyboard from appearing

There two ways to make it
reappear...

- 1) Press F5 on the
One Keyboard

- 2) Or, turn off Bluetooth

FCC Warning Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Prohibition of Co-location

This device and its antenna(s) must not be co-located or operating in conjunction with any other antenna or transmitter

Safety Information

To maintain compliance with FCC's RF exposure guidelines, this equipment should be installed and operated with minimum distance 2.5cm between the radiator and your body. Use on the supplied antenna. **Use on the supplied antenna. Unauthorized antenna, modification, or attachments could damage the transmitter and may violate FCC regulations.**

Declaration of Conformity for R&TTE directive 1999/5/EC

Essential requirements – Article 3

Protection requirements for health and safety – Article 3.1a

Testing for electric safety according to , EN50392 and EN 60950-1 has been conducted. These are considered relevant and sufficient.

Protection requirements for electromagnetic compatibility – Article 3.1b

Testing for electromagnetic compatibility according to EN 301 489-1 and EN 301 489-17 has been conducted. These are considered relevant and sufficient.

Effective use of the radio spectrum – Article 3.2

Testing for radio test suites according to EN 300 328 has been conducted. These are considered relevant and sufficient.

CE Mark Warning

This is a Class B product, in a domestic environment, this product may cause radio interference, in which case the user may be required to take adequate measures.
