ATTESTATION STATEMENT

Declaration on:

- Frequency use
- Antenna use
- Supported modulation

TO WHOM IT MAY CONCERN

Frequency use

We, Televic NV, declare on our sole responsibility that the Confidea conference system with the following components:

- Confidea DD (71.80.9111)
- Confidea CD (71.80.9112)
- Confidea DV (71.80.9113)
- Confidea CV (71.80.9114)
- Confidea DIV (71.80.9115)
- Confidea CIV (71.80.9116)
- Confidea DI (71.80.9117)
- Confidea CI (71.80.9118)
- Confidea D2D (71.80.9119)
- Confidea D2I (71.80.9120)

with IC Certification Number: 7932A- CONFIDEADU, and FCC ID: WM7-CONFIDEADU

together with the Confidea AP (71.80.9100) with IC Certification Number: 7932A-CONFIDEAWAP, and FCC ID: WM7-CONFIDEAWCAP

are only able to operate on the following frequencies for USA or Canada region:

ISM 2.4 GHz	RLAN low	RLAN high	ISM 5 GHz
2412 MHz	5180 MHz	/	5745 MHz
2417 MHz	5200 MHz		5765 MHz
2422 MHz	5220 MHz		5785 MHz
2427 MHz	5240 MHz		5805 MHz
2432 MHz			
2437 MHz			
2442 MHz			
2447 MHz			

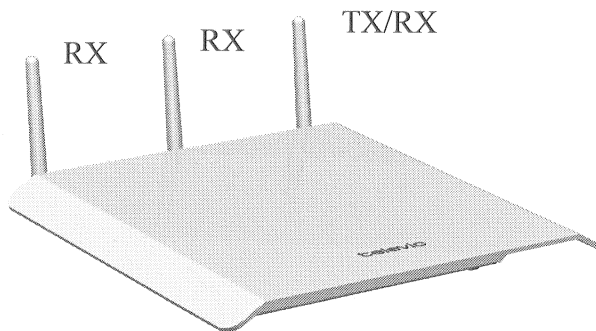

2452 MHz
2457 MHz
2462 MHz

The other frequencies that may be available for other regions are made permanently unavailable for the user, i.e. after selection of such unavailable frequencies; the system will automatically switch to automatic frequency selection mode. In the automatic frequency selection mode the system will select a frequency based on the availability status and RF occupancy.

Antenna use

We, Televic NV, declare on our sole responsibility that the Confidea conference system with the components mentioned above has the following antenna use:

The Confidea AP has 3 antennas. Only one antenna is used as TX antenna.

Supported modulation

We, Televic NV, declare on our sole responsibility that the Confidea conference system with the components mentioned above only supports OFDM modulation. As a consequence, the modulation defined in the 802.11b standard is not used and supported.

If you have any questions, please feel free to contact us at the address shown below

Sincerely,
