Re: Allflex Model No. GPR+ & UWSR+
FCC ID: WMQ-30005

Request for permissive change

Madam/Sir,

We, Allflex USA Inc, would like to change the functionality of the GPR+/UWSR+.

The equipment change is a software modification to add the frequency 125 kHz. No increase of the output power was measured on the new frequency. The product is electrically identical to the original granted equipment.

If you have any queries, please do not hesitate to contact us.

Respectfully,

Chuck Rogers
