RE: Destron Fearing Corporation

FCC ID: WMQ8008004
IC: 4284A-8008004

ATCB009476

After a review of the submitted information, I have a few comments on the above referenced Application. Depending on your responses, kindly understand there may be additional comments.

- 1) FYI...From verbal discussions regarding this device as PC Peripheral, it is our understanding that the applicant is utilizing a Class A Verification route to compliance. Kindly note that currently the manual does NOT include 15.103(a) information (and/or similar info for Canada) and should as the device is also considered a PC peripheral. The applicant needs to ensure that the manual is updated appropriately and keep any reports regarding this on record.

Timothy R. Johnson
Examining Engineer

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
