Elements instruction:

2,Power supply	**3,Tuner**

6,Memory	

1,ALI3329C

4,Jtag

7,Front panel

27MHz Crystal Frequecny

5,AV OUT
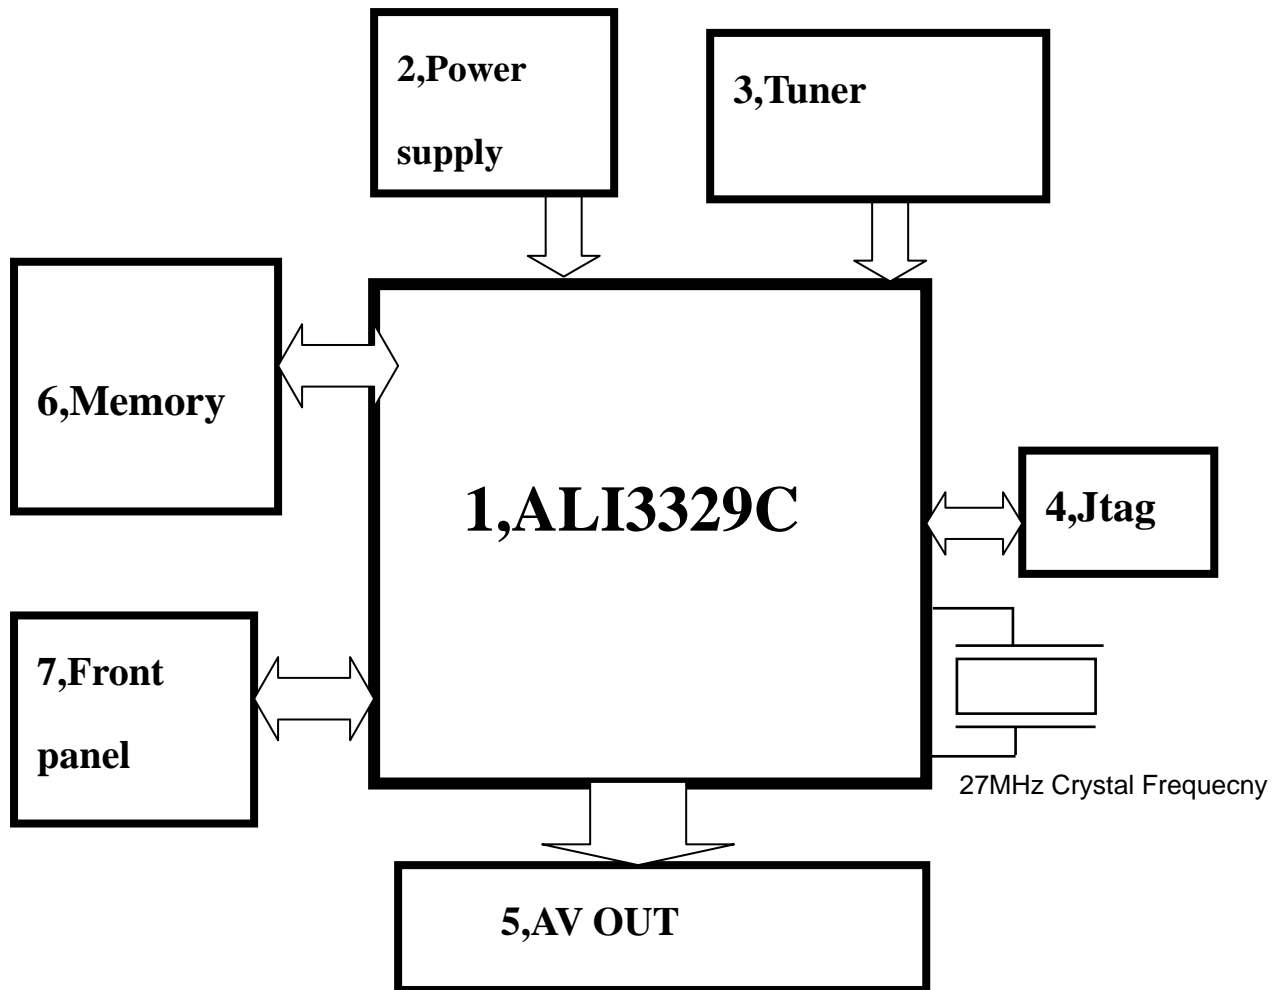

1,ALI3329C: main chip ALI3329C.

2, Power supply: AC –DC power board

3, Tuner: Receive satellite signals .

4, Jtag:Jtag port for soft debug

5,AV OUT: audio and video output

6,Memory:Flash and Sdram,where software and datas are storied.

7,Front panel: Program information display and receive infrared signals.
