

Safety Human Exposure

1.1 Radio Frequency Exposure Compliance

1.1.1 Electromagnetic Fields

RESULT: Pass
Test Specification

Test item	:	Wireless Indication Light, Wireless Extender
Identification / Type No.	:	ILB-21-FSK, ILB-21-EXT
FCC ID	:	WNG-ILB-21-FSK
Test standard	:	CFR47 FCC Part 2: Section 2.1093 FCC KDB Publication 447498 v06

Measurement Record:

$$\text{EIRP[dBm]} = \text{E[dBvV/m]} - 95.2$$

Since maximum peak output power of the transmitter is -15 dBm $\approx 0.0316\text{mW} < 22\text{mW}$.

Hence the EUT is excluded from SAR evaluation according to FCC KDB Publication 447498 D01 General RF Exposure Guidance v06.
