

A photograph of a Visonic MCX-610 PCI camera module. The camera is a small, white, rectangular device with a lens in the center, mounted on a simple wooden stand. It is positioned on a light-colored wooden table. In the background, there is a large, metallic, reflective surface, possibly a camera calibration target or a light shield. A white label is attached to the front edge of the table, displaying the text "VISONIC MCX-610 PCI".
