RE: FCC Limited Modular Approval
FCC ID: WP5TWN4F17
IC: 7948A-TWN4F17

To Whom It May Concern:

Please be advised that the manufacturer requests limited modular approval for the transmitter concerned as the module does not have a shielding can over its RF. It is for this reason that the manufacturer will apply for limited modular approval and have control over the installation of the module.

We will have full control of the installation of the module as we only sell B2B and it will only be installed by experienced employees.

Thank you for your attention to this matter.

Yours faithfully

Birgit Bachl
