RE: FCC required statements on label.

To Whom It May Concern:

We, Spirent Communications, have looked at the required FCC statements and our conclusion is that due to the size of the product and the label, we are not able to accommodate the full text of the required statements. The total space available for the FCC ID and mark is 12X25 mm. We have included the full text of the required statements in the user's manual page 6-3.

Please contact me if there is any information you may need.

Sincerely,

Enio Montenegro
