RE: Short Term Confidentiality Request for MWTC Series Transmitter FCC ID: WR3-MWTC-2 ; IC:8205A-MWTC2

To Whom It May Concern:

This letter serves as an official request for short term confidentiality under sections 0.457 and 0.459 of CFR47. Omega Engineering, Inc.(Omega) requests that Test Setup Photos, External Photos, Internal Photos, and Users Manuals that have been submitted with this application be treated as trade secret information and **held confidential for a period of 45 days after the grant is issued.**

The documents mentioned above contain detailed proprietary information and descriptions of the operation of our equipment. Omega considers this information to be proprietary, confidential and a custom design. Since this design may be the basis for future products we feel disclosure of this information would unfairly benefit our competitors. If this information was obtained by our competitors before the end of the above requested confidentiality period it could irreparably harm Omega. Please contact me if you need any more information.

Sincerely,

A handwritten signature in cursive script that reads "Stephen Waite".

Stephen Waite  
Omega Engineering, Inc.
