Declaration of Identical Construction

We

SICK AG
Merkurring 20
22143 Hamburg
Germany

declare that the following radar sensor models of the device families RMS1000 and RMS2000

Model

RMS-A
RMS-C

are based on identical hardware modules. Firmware for frontend controller and backend are identical and the same algorithms for interference mitigation are applied. Therefore these documents referenced to model RMS-A are also valid for model RMS-C:

RMS-A Antenna Specification 20210701
RMS-A Interference Mitigation 20210824

Hamburg, 2021-08-26
