

See email thread reference below dated 17/10/2023 from Blake Fuller at D&I (Blake Fuller <blake.fuller@design-industry.com.au>)

*“RE: Cooltrax SensorTag, AU, NZ, USA, CA compliance, Global approvals project P220602”*

Operational description:

The Cooltrax SensorTag WT-V4 is a battery powered device that records various sensor values, stores these to non-volatile memory and then transmits them over BLE to either Cooltrax UMD4 or Cooltrax mobile application.
