BLUETOOTH HEADPHONE SPLITTER

USER MANUAL

We are craftspeople. We are musicians. We are KitSound™
 And we all commit ourselves to achieving one shared goal: Bringing people closer to their music. By truly understanding music we stay true to its craft. Pure, rich, incredible sound. We'll settle for nothing less.

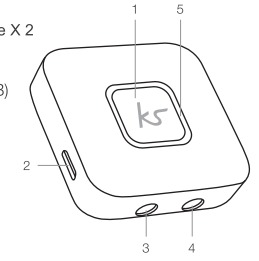

Please read this manual carefully before use.

Box contents

- KS Bluetooth Headphone Splitter
- Charge cable
- User manual
- 3.5mm to 3.5mm audio cable X 2

Functions

- Multi Function Button (MFB)
- Micro USB charge port
- Headphone jack 1
- Headphone jack 2
- LED

Instructions for use

Charging

It is recommended that you give the Splitter a full charge before its first use.

- Plug the micro USB end of the charge cable into the Micro USB charge port (2)
- Plug the standard USB cable end into either a computer or a USB mains charger
- The LED (5) will be solid red whilst charging
- When charging is complete, the LED (5) will be solid blue

Note: It may take up to 2 hours before the Splitter is fully charged.

Note: The LED (5) will flash red every 6 seconds when low on battery.

Getting started

To turn the Splitter on and off, press and hold the MFB (1) for 6 seconds.

Note: The splitter will automatically enter pairing mode when turned on.

Pairing the Splitter to your device

Before you can use the Splitter via Bluetooth, it will need to be paired to your device.

To do this:

- Turn the Splitter on as explained in 'Getting Started'
- If the Splitter is already turned on and not previously paired to another device, it will automatically go into pairing mode and the LED (5) will be flashing red and blue
- Turn your device's Bluetooth ON and search for new devices
- When 'BT Splitter' appears in the list, select it and if asked for a passcode, enter '0000'
- The Splitter should then be paired to your device. Once connected, the LED (5) will flash every 7 seconds
- The Splitter will automatically pair to the last device it connected to when turned on

Playing music through your Splitter

If already connected to the Splitter via Bluetooth, simply plug in up to two pairs of headphones into Headphone jack 1 (3) and Headphone jack 2 (4).

Note: When playing music through the Splitter, you can play/pause by short pressing MFB (1)

Care for your KS Bluetooth Splitter

Please DON'T:

- Get the Splitter wet
- Drop the Splitter as this will invalidate your warranty
- Open up the Splitter. There are no user serviceable parts inside
- Expose the Splitter to extreme temperatures or rapid changes of hot to cold or vice versa

Please DO:

- Clean the Splitter with a soft dry cloth and no detergents

Troubleshooting

We hope you've now got all the information you need to get started, but if you're having problems with anything, please feel free to contact us at: support@kitsound.co.uk

Please do not attempt to open this product. There are no user serviceable parts inside, in particular if your product has an embedded, non-replaceable battery, do not attempt to access or remove the battery as this may cause personal injury and will damage the product. Making any attempt to open the product or carry out repair voids any and all warranties.

We apologise for any inconvenience caused by minor inconsistencies in these instructions, which may occur as a result of product improvement and development.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- oReorient or relocate the receiving antenna.
- oincrease the separation between the equipment and receiver.
- oConnect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- oConsult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.
