FEDERAL COMMUNICATIONS COMMISSIONS
Authorization and Evaluation Division
7435 Oakland Mills Road
Columbia, MD 21046

Subject: Description of Permissive Change

Dear Sir/Madam,

We, TELTRONIC S.A.U. hereby authorize Bay Area Compliance laboratory Corp to act as a laboratory for testing and test report generation for the following project(s):

FCC ID: **WT7PTRKTMDT400450**, Model: MDT-400 450-470 MHz

This project is a Permissive Change II submission for the purpose of a new modulation. Current Occupied Bandwidth is 20 KHz, but now, the equipment has two different Occupied Bandwidths: 20 KHz and 22 KHz.

Due to this change in the modulation, the maximum output power is increased up to 10 W.

There are not any hardware changes in the equipments for the new modulation. It is only a software change. With this new software version, we can change between different modulations using only the PC programmer. This tool is only for the technical service.

We affirm that between BAACL and TELTRONIC S.A.U. , any difference in understanding, including test plan, measurement methods, applicable standards and relevant procedures and processes have been resolved prior to commencement of testing activities.

This authorization is valid until further written notice from the applicant.

Sincerely Yours,

A handwritten signature in blue ink, appearing to read 'Jose Roman Gimeno', with a long horizontal flourish extending to the right.

Jose Roman Gimeno
