FEDERAL COMMUNICATIONS COMMISSIONS
Authorization and Evaluation Division
7435 Oakland Mills Road
Columbia, MD 21046

Subject: Description of Permissive Change

Dear Sir/Madam,

We, TELTRONIC S.A.U. hereby authorize Bay Area Compliance laboratory Corp to act as a laboratory for testing and test report generation for the following project(s):

FCC ID: **WT7PTRKTMDT400800**, Model: MDT-400 806-870 MHz

This project is a Permissive Change II submission with the intent of increasing the equipment capabilities adding a new modulation. Previous Occupied Bandwidth was 20 KHz, from now on, the equipment will support two different Occupied Bandwidths: 20 KHz and 22 KHz.

Due to this change in the modulation, the maximum output power is increased up to 3 W.

There are not any hardware changes in the equipment for the new modulation. It is a software upgrade only allowed and controlled directly by the grantee (TELTRONIC, S.A.U.).

Yours faithfully,

A blue ink handwritten signature is written over a circular blue stamp. The stamp contains the Teltronic logo and the text "teltronic S.A. Unipersonal".

Jose Roman Gimeno
