

Federal Communications Commission
Office of Engineering and Technology
Equipment Authorization Division

To Whom it May Concern,

FCC ID: WT7PTRNKTBSR75450

The attached Class II permissive change report covers:

1. The addition of a low power of 0.6 Watts which is adjustable in 2 dB steps to the power listed in the grant.
2. A correction in the emission designator from 20K0D1W, D1E, D1D to 20K0D7W, D7E, D7D.
3. Correct the occupied bandwidth plot limit line from 25 kHz to 20 kHz.

Neither change is a result of changes to in any way to the hardware or software of the transceiver.

Regards,

Mario de Aranzeta
Engineer/ Lab Supervisor
