

CAUTION TO USERS

The antenna(s) used for this transmitter must not be co-located or operating in conjunction with any other antenna or transmitter. This device is approved with emissions having a source-based time-averaging duty factor not exceeding 50%.

Fixed – Antenna Installation:

- Antennas used for this transmitter must not exceed an antenna gain of 10 dBi with a minimum cable loss of 2dB.
- For fixed installations, the antenna must be located at least 72 inches away from bystanders in order to comply with the FCC RF exposure requirements.

Failure to observe these restrictions will result in exceeding the FCC RF exposure limits.
