

Federal Communications Commission  
Office of Engineering and Technology  
Equipment Authorization Division

To Whom it May Concern,

FCC ID: WT7PTRUNK25RF760

The attached Class II permissive change report covers:

1. The addition of a low power of 0.6 Watts which is adjustable in 2 dB steps to the power listed in the grant.
2. A change in emission designator that removes 11K0F1D and adds 8K1F1E and F1D.

Neither change is a result of changes to in any way to the hardware or software of the transceiver.

Regards,

Mario de Aranzeta  
Engineer/ Lab Supervisor
