- ⑤ Any error damage caused by force majeure such as earthquake, fire, flood, lightning strike etc.
- ⑥ Deliberate assembling, repair or reform without permission from our company.

(B) Explanation of After Service:

1. The date of purchased should be in accordance with that of the invoice, any failure to provide the valid proof, is subjected to the production date.
2. Quality problem does not include user's personal preference to tone and timbre.
3. The shell and user manual package are exclusive to warranty service.
4. For the model that production has been stopped, we only provide functional repair.
5. We are not responsible for any promises by retailer other than our company.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
