Federal Communications Commission
Authorization and Evaluation Division

Confidentiality Request for the internal photos and user manual for certification of FCC ID: WU8NB24BS

Pursuant to Sections 0.457 and 0.459 of the Commission's Rules, we hereby request confidential treatment of information accompanying this application as outlined below:

Exhibit Type

Internal Photos
User Manual

File Name

WU8NB24BSIntPho.pdf
WU8NB24BSUserMan.pdf

The above materials contain trade secrets and proprietary information not customarily released to the public. The public disclosure of these materials may be harmful to the applicant and provide unjustified benefits to its competitors. Per section 5.2 of the user manual, the unit is sealed by laser welding the cover with the plastic housing during manufacturing and cannot be disassembled without permanent and visible damages to the structure. Since the device is sealed and disassembly would destroy the product, it is requested that internal photos be held confidential. The user manual also functions as a product description that contains detailed technical information including the antenna pattern, waveform details and block diagrams. The user manual provided is an internal version and will not be supplied to the final customer, consequently it is requested that the user's manual be held confidential.

Attached is a copy of the Terms and Conditions for the purchase and sale of the sensor. Non-disclosure is addressed in Article 11 of the Tooling Terms and Conditions.

Sincerely,

 3/14/13

Jeff Schaefer
