Rear Seat Entertainment System**Operating safety**

⚠ WARNING Risk of injury from unsecured items in the vehicle

If objects such as headphones/headsets or external audio/video sources are not secured in the vehicle interior, they can be flung around and hit vehicle occupants.

▶ Always stow these items or similar objects carefully so that they cannot be flung around, for example in a lockable vehicle stowage compartment.

Observe the notes on loading the vehicle.

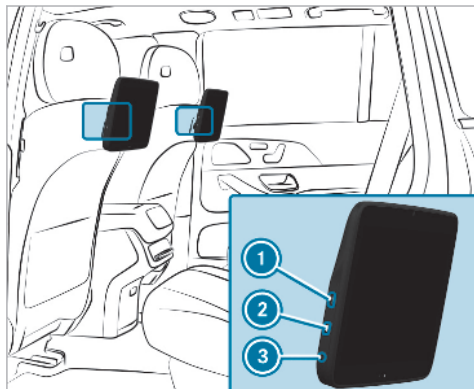

Rear Seat Entertainment System overview

The Rear Seat Entertainment System includes:

- Two rear displays ① behind the head restraints of the front seats
 - Connections for USB (type C) and HDMI mini on the rear displays (→ page 522)
 - Up to two wireless headphones as accessories
- ⓘ No content can be saved nor can any applications be installed in the Rear Seat Entertainment System.

Rear displays

Overview of the rear displays

- ① HDMI mini port
- ② USB port (type C)
- ③ Socket for corded headphones with a 3.5 mm stereo jack

The rear compartment displays are located behind the head restraints of the front seats.

The rear displays are equipped as touchscreens. Further information on operating touchscreens (→ page 357).

When the rear door is opened, the welcome screen appears.

The rear displays connect automatically with the multimedia system.

ⓘ Headphones with wired remote control and stereo jack (3.5 mm) cannot be used.

Switching a rear display on/off

- ▶ On the rear display: press the **ON** button.
- The rear display is switched on or off.

Home screen overview (rear display)

Example: home screen

- ① Calls up the home screen
- On the home screen: displays the first three applications
- ② Returns to the previous display
- ③ Displays, e.g. network display, time
- ④ Sets volumes

- ⑤ Opens an application via symbols
- ⑥ Name of the application, beneath the current selection or information
- ⑦ Quick-access
- ⑧ Number of applications and currently selected display area
- ⑨ Calls up the air conditioning menu
- ⑩ Calls up the air conditioning menu

Headphones

Headphones overview (Rear Seat Entertainment System)

⚠ WARNING Risk of injury due to high volume of the headphones

Your hearing can be damaged when exposed to high volumes.

▶ Make sure that the volumes at the rear displays are set to a comfortable volume before putting on the headphones.

The following external headphones can be connected to each rear display:

- Bluetooth® headphones
- Corded headphones via a 3-pin stereo jack, 3.5 mm

① The headphones are not in the scope of delivery for the Rear Seat Entertainment System.

You can obtain headphones from Mercedes-Benz Accessories or in a specialist shop (see the manufacturer's operating instructions).

① The function of wireless headphones can be impaired by other radio-based electronic devices, such as mobile phones, for example.

Connection of corded headphones with a 3-pin stereo jack, 3.5 mm

- ① Audio L (audio signal for left channel)
- ② Audio R (audio signal for right channel)
- ③ Earth

Rear seats

Adjusting the rear seats on the Rear Seat Entertainment System

Rear Seat Entertainment System:

 **Comfort** **Seat comfort**

Setting seat climate control

▶ Select **Seat Climate**.

▶ **To set seat heating:** tap on the bar until the desired heating level is set or the seat heating is switched off.
Depending on the heating level, up to three indicator lamps will light up.

 The indicator lamps are also lit in the seat button in the side door.

▶ **To switch the panel heating on/off:** switch **Panel heating** on or off.
When panel heating is switched on, the armrests, the centre panels on the doors and the centre console are heated.

▶ **To adjust distribution of seat heating/ seat ventilation:** slide the control knob.

Settings can be made for different areas of the seat, for example:

- Sitting surface
- Sitting surface and backrest
- Backrest

▶ **To set seat ventilation:** tap on the bar until the desired ventilation level is set or the seat ventilation is switched off.
Depending on the ventilation level, up to three indicator lamps will light up.

 The indicator lamps are also lit in the seat button in the side door.

Adjusting the seat contour in the lumbar region of the seat backrest (lumbar)

- ▶ Select **Lumbar**.
- ▶ Select the seat.
- ▶ Select the seat again and set the air cushion.

Adjusting the backrest side bolsters

- ▶ Select **Side bolsters**.

▶ Select the seat.

▶ Adjust the air cushions.

- ▶ Select [Device Manager](#).
- ▶ Select a device that is to be connected. Headphones and headsets are connected with the rear display. Mobile phones and other devices are connected with the multimedia system.

Setting the sensitivity for the rear display

- ▶ Select [Touch Sensitivity](#).
- ▶ Select [Fast](#), [Medium](#) or [Slow](#).

Showing system information

- ▶ Select [System info](#).

Navigation

Switching on navigation in the rear compartment

Rear Seat Entertainment System:

- ▶  ▶ [Navigation](#) (Navigation)

The map appears and shows the current vehicle position.

- ▶ Select an option in the navigation menu.

The following options are available, for example on the rear display:

- Entering the destination and transferring the destination to the multimedia system using [Send to Car Navigation](#)
- Setting the map scale (→ page 438)
- Moving the map and rotating the map
- Showing route information
- Online map update for regions
This option is not available in all countries.

Services, apps and web browser

Overview of services, apps and web browser (Rear Seat Entertainment System)

The following functions are available on the rear display depending on the country and vehicle equipment:

- Use of streaming, casting and sharing services

The transmission of content according to the DLNA certificate is supported.

A device can be connected with the rear display using the HDMI mini port.

Streaming media devices, such as Google Chromecast for example, are available for the rear display after registration in the device manager. Connect a device in the device manager (→ page 526).

- Calling up the web browser

The rear display uses a browser from the manufacturer.

- i Devices and apps for the use of streaming, casting and sharing services are not part of

the scope of delivery for the Rear Seat Entertainment System.

For legal reasons, some content can only be played back with specific apps.

The AirPlay interface for transmitting content is not currently supported.

- i You cannot download content via the web browser.

Calling up services, apps and web browser (Rear Seat Entertainment System)

Requirements:

- An Internet connection is set up in the multimedia system at the front via the communication module, depending on the vehicle equipment (→ page 489)

Rear Seat Entertainment System:

- ▶ Select an application.

Media

Information about media mode in the rear compartment

There is one USB port and one HDMI connection in the Rear Seat Entertainment System (→ page 522).

Data storage media supported by the Rear Seat Entertainment System:

- USB storage device

The data storage medium is connected with the rear display via the USB port (type C) (→ page 522).

The data storage medium is connected with the multimedia system using the multimedia connection unit in the stowage compartment under the armrest (→ page 500).

- iPod®
- iPhone®
- MTP devices
- Bluetooth® audio equipment

Bluetooth® audio equipment can only be authorised using the multimedia system (→ page 500).

The Rear Seat Entertainment System supports a total of up to 50,000 files. The Rear Seat Entertainment System can also access files on the multimedia system.

Further information about media mode (→ page 496).

The terms HDMI and HDMI High-Definition Multimedia Interface, and the HDMI Logo are trademarks or registered trademarks of HDMI Licensing LLC in the United States and other countries.

Switching on media mode in the rear passenger compartment

Requirements:

- A data storage medium is connected with the rear display or the multimedia system.
- A Bluetooth® audio device is connected with the multimedia system.

Rear Seat Entertainment System:

  Media

 Select **USB** or **Bluetooth**.

The following functions are available:

- Controlling media playback (→ page 528)
-  Using the keyword search (→ page 504)
-  Searching for media files using categories (→ page 503)

Controlling media playback in the Rear Seat Entertainment System

Rear Seat Entertainment System:

  Media

- ▶ **To pause or continue playback:** select  or .
- ▶ **To select the next or previous track:** select  or .
- ▶ **To scroll through tracks quickly:** press and hold  or .
- ▶ **To wind a track forwards or backwards:** tap on the desired point on the timeline.
- ▶ **To play back tracks in random order:** select .
- ▶ **To repeat a track:** select .

For the repeat function there are the following options:

- Tap once: the active playlist is repeated.
- Tap twice: the current track is repeated.
- Tap three times: the repeat function is deactivated.

- ▶ **To show the current track list:** select the cover.

Radio

Switching to radio in the rear passenger compartment

Rear Seat Entertainment System:

→  ▶▶ Radio

- ▶ Select a station with  or . The station is selected on the multimedia system.
- ▶ **To set a frequency band:** select a frequency band.

Setting [Audio/subtitles](#)
Switching [Station fix](#) on or off.
Displaying [Teletext](#)
Selecting [Video settings](#)

Sound

Overview of sound settings in the rear compartment

The sound settings depend on which sound system is available.

Depending on the equipment installed, one of the following systems is supported:

- Sound system (→ page 515)
- Burmester® surround sound system (→ page 516)
- Burmester® high-end 3D surround sound system (→ page 518)

Selecting sound settings in the rear compartment

Rear Seat Entertainment System:

   Settings  System

-  Select **Sound**.
-  Select the sound settings.

Europe

Simplified DoC:

EN	<p>Hereby, Panasonic Automotive Europe GmbH declares that the radio equipment type Daimler RSE is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address:</p> <p>http://www.doc.panasonic.de</p>
----	---

Packaging Information:

Restrictions or Requirements in (BE), (BG), (CZ), (DK), (DE), (EE), (IE), (EL), (ES), (FR), (HR), (IT), (CY), (LV), (LT), (LU), (HU), (MT), (NL), (AT), (PL), (PT), (RO), (SI), (SK), (FI), (SE) (UK).

In EU, 5150 to 5350 MHz is restricted to indoor.

RF exposure Statement

The Daimler RSE device shall be used with a separation distance of at least 20 cm from all persons.

RF max. power overview

Supported Technology	Frequency Operation	Max. RF power
Bluetooth	2400 - 2483.5 MHz	-0.8 dBm
WLAN 2.4GHz	2400 - 2483.5 MHz	14.5 dBm
WLAN 5GHz	5150 – 5250 MHz	20.5 dBm
	5725 – 5875 MHz	13.3 dBm

FCC § 15.19 Labelling requirements

This device complies with part 15 of the FCC Rules and Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC § 15.21 Information to user

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

RF Exposure Requirements

To comply with FCC RF exposure compliance requirements, the device must be installed to provide a separation distance of at least 20 cm from all persons.

ISED Statements (Canada)

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

RF Exposure Requirements

This equipment complies with Canada radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.

Radiation Exposure Statement:

This equipment complies with IC radiation exposure limits established for an uncontrolled environment. This equipment must be installed and operated with a minimum distance of 20 cm between the radiation source and your body.
