RE: Change in ID Request

To Whom It May Concern:

This Change of Identification request applies for a new FCC ID as established in 47CFR 2.933(b) for a currently approved device. This application by Met Laboratories will establish a new FCC ID under JDS Uniphase Corporation grantee code for purpose of incorporating the device in cellular test equipment connected to an external antenna. The original grant to UTStarcom, Inc. FCC ID: 'O6Y-UM100' will remain in effect.

The changes to the original device are listed below. Exterior photographs are included in this application.

1. External cellular antenna is connected to the antenna port of UTStarcom UM100C cellular device.

Sincerely,

Mike Michel

Senior R&D Engineer

1100 Perimeter Park Dr, Suite 101

Morrisville, NC 27560
