FCC ID : WVB-AV2300
Label Information

Gentlemen:

Because The device is so small that it is not practicable to place the statement specified under 15.19 statement request, the information required by this paragraph shall be placed in a prominent location in the user's manual.

- The available label area on the device is limited because it is relatively small and has many contoured surfaces, keypads, Lcd displays, charge contacts and other connectors.
- The batteries are designed for easy removal and the label will be visible whenever the batteries are removed for charging or replacement.
- The label will be readily visible at the time of purchase because the device will be marketed without the battery installed.

Sincerely,

Brightstar Corporation
Welton Giolo
