# User Manual

0104993

1. Insert CR2032 battery to power transmitter.
2. After transmitter is placed in position, trip switches on transmitter and verify signals are received properly.

Changes or modifications not expressly approved by Andersen Corporation could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
