## ALUMINUM SLIM PAD WIRELESS CHARGER

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Caution: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this device.

**NOTE:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

### FCC STATEMENT

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: 1) this device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation.

**NOTE:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement; the device can be used in portable exposure condition without restriction.

## Product Description

QI WIRELESS COMPATIBLE  
SMARTPHONE

THE SURFACE FOR  
WIRELESS CHARGING

## Product Specs

### COMPATIBILITY:

iPhone® X, iPhone® XS, iPhone® XS Max, iPhone® XR, iPhone® 8 Plus, iPhone® 8, Samsung Galaxy S10®, Galaxy S10+®, Galaxy S10e®, Galaxy S9®, & Note 8

**INPUT:** DC 5V 2A, 9V 1.67A    **OUTPUT:** 10W  
**FOR MAX CHARGING SPEED USE A 2.4A AC ADAPTER**

WILL ONLY CHARGE THROUGH CASES 5MM THICK OR LESS

1

## Wireless Charging

- Please make sure to use a wall adapter or USB port that is 1A - 2.4A for optimal charging speeds
- Recommended not to use any USB ports producing under 1A
- Use only micro USB cables
- Computer USB ports are typically under 1A

## Troubleshooting

- If you are experiencing issues with wireless charging make sure your phone is centered on the charger (see image below)
- If you are experiencing slow charging be sure to use a USB port or wall adapter that is rated for 1A or above (2.4A max)
