TIMCO Engineering Inc.
849 NW State Road 45
FCC Approvals
Newberry, FL 32669
USA

SUBJECT: Industrial System Electronics - FCC ID: WWNISE-400-DLN
REFERENCE: JOB 743UC9
Re: Reply to TIMCO Findings noted: 4/10/2009

Dear Sir,

In response to your e-mail dated April 10, 2009. Please see below our reply:

- 1. Label Sample:** please explain why the FCC ID is not included on the label as required by 47 CFR Part 2 Section 2.1033(b)(7).
⇒ **Here is attached updated Label Sample.**
- 2. Label Sample:** please explain why the label does not include the 2-part statement required by 47 CFR Part 15 Section 15.203.
⇒ **There is no antenna on the EUT. I think it means the label has to be included as below information.** “This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.”
This is updated on attached Label Sample.
- 3. Block diagram:** please explain why this document does not describe the frequency, signal path and location of all oscillators as required by 47 CFR Part 2 Section 2.1033(b)(5).
⇒ **Here is attached updated Block Diagram.**
- 4. Test Report pages 14 and 15:** please explain the nature of the radiated ambient emissions highlighted in the graphical data presented on these pages.
⇒ **The highlighted means the level of Ambient was higher than the limit level. The emission was hide under the ambient.**
- 5. Confidential Letter:** please remove the phrase “and others you want” from the list of requested files.
⇒ **Here is attached updated Confidential Letter.**

If you have any questions please feel free to contact me.

Sincerely,

ONE STOP GLOBAL CERTIFICATION SOLUTIONS
