

Limited modular Approval Request**11/12/09**

I, an officer of Onset Computer Corp, Do hereby request approval for 91-ZW-EM260 radio module to be used solely in Onset computer end products. 91-ZW-EM260 module will only be used in Onset Computer end products and is not intended for sale as a standalone device.

As per FCC 15.212(a)(1) the following items apply.

Item	Compliant	Non-compliant
Module Shielding		X (See Note 1)
Buffered modulation/data		X (See Note 1)
Stand alone power supply		X (See Note 1)
Antenna and transmission system requirements	X	
Tested in standalone configuration	X (see note2)	
Label requirements	X	
Instructions for use	X	
RF exposure requirements	X	

Note 1

Due to the fact that that the module is only placed in Onset Computer end products the items listed are compliant by default.

Note 2

Testing was performed with the chip antenna in the vertical orientation. This is the only way the device will be used in the field and the orientation is clearly noted in the manual.
