

## ES520 Letter of Attestation

March 21, 2013

MET Laboratories, Inc.  
914 West Patapsco Avenue  
Baltimore, MD 21230

RE: Letter of Attestation for the ES520, FCC ID: WYK-ES520

To Whom It May Concern:

This letter is to confirm that all ES520 products sold in the US will be equipped with an FCC version.

This version will not allow changes to the country code setting and all TX power, antenna gain, and channel selection operations will conform to FCC regulations. Units sold to the US military may be provided the ability to operate in non-US regulatory domains. This ability will NOT be provided on any units sold in the US to non-US military customers.

Only software images in compliance with FCC regulations will be available to US installation in future software upgrades
