Authorization and Evaluation Division

## 5G\_Sub\_6GHz\_HAC\_Attestation

To whom it may concern,

We, [Sonim Technologies, Inc.], as the manufacturer of FCC ID: WYPP14010,

We attest the handset as designed is expected to exhibit similar audio intensity levels between a voice call placed over a VoLTE connection and over a 5G Sub-6GHz connection. The combination of ABM1 values from a VoLTE connection and ABM2 values from the 5G Sub-6GHz connection, while maintaining a S+N/N margin of 3dB or greater from the rating threshold, is expected to represent the HAC performance when operating in 5G Sub-6GHz bands

Should you have any questions or comments regarding this matter, please have my best attention.

Sincerely yours,

---
