Contents

1   About the document

This document lists the SW/HW differences between Sonim XP3300 Z1 and Sonim XP3330 Z1 PTT.
Sonim XP3330 Z1 PTT comes out in two models Sonim XP3330-E-X1 and Sonim XP3330-A-X1.

Implementation 1 (XP3300 Z1)			
Model Name	Type Number(s)	SW Version (SW1)	HW Version (HW1)
Sonim XP3300-E-X1	P24C005AJ	500030SW03A00_Ex-Handy_07_2 (SV01)	A
Sonim XP3300-A-X1	P25C005AJ	500030SW03A00_Ex-Handy_07_2 (SV01)	A

and

Implementation 2 (XP3330 Sentinel Z1 PTT)			
Model Name	Type Number(s)	SW Version (SW2)	HW Version (HW2)
Sonim XP3330-E-X1	P24C005AJ	500030SW06A00_Ex-Handy_07_5 (SV05)	A
Sonim XP3330-A-X1	P25C005AJ	500030SW06A00_Ex-Handy_07_5 (SV050	A

Based on these differences, and if needed, a retesting scope for Implementation 2 is suggested.

2   Detailed Descriptions of the SW Changes

SW2 is a direct line derivate from the previously type approved SW1.

The executable software build of SW2 is the same as the one of SW1, except for the differences listed
below.

Please note that each section of software change is concluded with a statement that either 1) contains
Sonim's suggestion of the impacted by the change area for retest, or 2) declares that the change does not
result in any retesting.

3.	**Circuit Switched PTT Application**	
	Description	Details
	Kodiak CS PTT as an additional feature	Additional new PTT Application using Kodiak DCE would be integrated into the phone. Using Kodiak PTT, the user would be able to call another PTT user with Kodiak enables PTT. Other features like group call (multi party), Presence (view the availability of other PTT user), etc.
	Sonim Assessment	
	No impact to the NW performance due to this change – no retesting needed	

3   Detailed Descriptions of the HW Changes

The hardware design of HW2 is similar to the hardware design of HW1 in all details.
